

# Grayscale Inc.

Saying that the competition is tough as hell in today's market won't be saying anything new, but saying that you can help secure your own placement would be saying something right?

So here's the deal. **Grayscale Inc.** is a brand-new, top of the shelf legal service run by undergraduates from various universities/colleges throughout India. Call it a virtual law firm if you will.

**Grayscale Inc.** currently provides the following services:

*Consultancy:* Providing legal advice to clients.

*Advocacy:* Everyone needs a good argument sooner or later. Grayscale provides opinionated articles on issues to clients (including students) for a fee.

*Drafting:* Drafting is as much an art as it is a science. Grayscale helps draft legal notices, complaints, reply notes etc. for lawyers who need assistance and for laymen.

*Research:* We know the professionals in the field have a lot on their hands. Quality research is much needed and sought for. Grayscale provides research material to lawyers and other legal professionals on specific matters as asked for. Law students having access to various E-Sources and libraries in their university premises can be very efficient in this regard.

## Why should you read further?

- Let's not talk about what the market demands; let's talk about you want as a student. We have complained long enough that we lack hands-on experience, and that we need to make some sort of difference to all the rot surrounding us. So you have a cause.
- An experience in the field apart from your internships will not only help you earn brownie points with lawyers, but give you an edge over other potential employees
- Efficient work will get recognized by lawyers and legal professionals. The importance of this impression cannot be stressed upon enough.

- Playing to your strengths. No one knows everything, and neither is he interested in everything. **Grayscale** will let you work in the department which interests you and in which you can be considered an expert.

### Practice Areas

- ❖ Competition Law
- ❖ Contract Law
- ❖ Corporate Law
- ❖ Cyber Law
- ❖ Environmental law
- ❖ Family Law
- ❖ Intellectual Property Law
- ❖ Media Law
- ❖ Sports Law

Each of these areas will have separate teams working in them.

Bear in mind that this list is tentative and is subject to addition/deduction depending on the availability of students willing to practice in them.

Also, only students in their 2<sup>nd</sup> year or above from 5-year law courses and students in their 2<sup>nd</sup> year from 3-year law courses may apply.

So send in your CVs to [incgrayscale@gmail.com](mailto:incgrayscale@gmail.com) along with your area of specialty. Send us any articles/research papers you have done in that area. Queries and clarifications are more than welcome.

It is time grab hold of ourselves and our future. Looking forward to your enthusiasm and support in this new venture.
