ABOUT ECOLAWGY

A LITTLE BIT ABOUT OUR HUMBLE FIRM

Ecolawgy is an online platform for publication for people who want to bring a change in the environment by spreading awareness in the society. We cover scholarly articles, articles, news articles, stories, fresh ideas and we are always on the lookout for the same. We aim to work with people who can bring about a change in the world and we strongly believe that a change brought about by policies and legislations would be long lasting. Ecolawgys' focus is on students and young minds that are beaming with ideas and want a platform to publish or showcase the same.

Our Mission

- A lot has been happening which has changed the environmental dynamics of the world and we believe these can be documented in a fascinating fashion to spread environmental awareness.
- This is a place where we aim to provide a platform for environmentalists and scholars (students and professionals alike) to spread and gain knowledge and collaborate.
- Our goal is to spread awareness and connect to people who can bring the much-needed change, by working towards the common goal of saving the planet.

Our Vision

We aim to work with people who can bring about a change in the world and we strongly believe that a change brought about by policies and legislations would be long-lasting. Our focus is on students and young minds that are beaming with ideas and want a platform to publish or showcase the same.

Ecolawgy publications are our way of conglomerating ideas- fresh and recycled and well-researched. This is a platform where we aim at “bringing out innovative legal and policy solutions for the world’s environment”. We want to be part of the community who are making an effort to save the planet, but we wish to do the same exclusively through policy-making and legal reforms.

A lot is happening in the world, as we keep saying and we aim to provide a dynamic platform where people can share their ideas.

Our Objective

- Bring about change in the environment and propose ideas to save the environment.
- Seeking unique approaches to environmental issues.
- Provide a ground for environmentalists and students to gain knowledge and collaborate.
- Spread awareness.

Campus Ambassador Program – Ecolawgy

Ecolawgy is looking for Contract Campus Ambassador! We are people who want to be a change in the environment by spreading awareness in the society. How do we intend to do it? By writing about the environment, one legal issue at a time. We cover scholarly articles, articles, news articles, stories, fresh ideas and we are always on the lookout for the same.

As a Campus Ambassador for Ecolawgy, you will host events on your campus to promote our website. You will also create basic environmental awareness and how students can help with the same and also publish with us.

Responsibilities

- Grow a community that is environmentally aware and aware of the legislation and policies pertaining and related to the same, on your campus
- Host events to educate students about Ecolawgy.
- Encourage students to send in their articles for Ecolawgy.

Qualifications

- Interested in environmental affairs.
- Interested in sales, marketing and event management
- Proficient with social media (Instagram, Facebook, LinkedIn)
- Efficient communicator and good with networking
- Involved in campus organizations and communities

What we offer you

- **Flexibility and Opportunity:** We offer you flexible working hours and an opportunity to work with an environment law related start up, a field which is expected to grow in a post covid-19 era.
- **Professional Development:** You will gain practical knowledge and exposure and connect to our team and thereby learn and polish skills including sales, networking, communication, management, and leadership skills.
- **Career Advancement:** After completing our program, you'll be well-equipped with the skills and business knowledge needed to succeed in your future career.
- **Certificate:** We will provide you a certificate and letter of recommendation by our founders.
